Behavioral Healthcare Consulting and Training Institute has a new contractual position which is expected to lead to full time employment for an experienced individual with an entrepreneurial spirit and proven success. We are looking for a dedicated, driven and talented manager to promote consulting and key note speaking services in the Maryland and surrounding areas. Entails contacting organizations by telephone and email to market and promote training and consulting services along with all administrative support services needed to set up these engagements. Must track data on a spread sheet and be proficient at using software programs to manage our training and consulting firm.

This is a long term engagement for an individual seeking growth opportunity.

This position is expected to become a salaried full time position for the right individual. Earn 20% of all profit that is generated from engagements that you set up for our organization. Individual must be available during some weekdays in order to market our services to organizations. Commission based income could be \$50,000 or higher for someone working approximately 20 hours per week.

Must be highly self-motivated, a terrific communicator, and an insightful closer. Come and partner with us to build a dynamic worldwide organization. We have a superb reputation and desire bright, energetic and ambitious management to help us move forward quickly.

This commission based position entails the following:

- Growth opportunity for an ambitious professional to market our training and consulting services to organizations of all kinds
- Work from home; however, you must be familiar with the Maryland Marketplace
- Flexible schedule involves some daytime hours as well as some evening and weekend hours

Requirements:

1. Please respond to this ad with your resume.
2. Give specific information about your experience in marketing and managing administrative tasks.
3. Provide information about your technological knowledge, your ability to work with spreadsheets, and your ability to learn software packages.
